NUMBER 27.

MEETING SATURDAY TO START BETTER LIVESTOCK PROJECT

Those Backing Movement Anxious For Support Of Local Business Men—Enterprise Backed By Wide Favor—See Increased Prosperity For All Concerned—Cite Advantages.

An epoch in Wilbarger county agricultural circles may be started Saturday afternoon at 2:30 when farmers and townspeople meet in the district court room for the purpose of forming what will be known as the Wilbarger County Pure Bred Livestock Association. Indications are that scores of those interested will be present as the movement toward organization is being received enthusiastically everywhere.

A constitution and by-laws will doubtless be drawn up, it has been stated, and if the will of those present is favorable, officers, too, will be elected. For this purpose it is hoped representative citizens of both rural communities and Vernon will be present.

Want Help Of Citizens.

According to one of the originators of the movement, the cooperation of Vernon business men is especially desired in the formation of a pure bred association. It is pointed out that through efforts of the merchants in some communities there have been established pavilions, sales barns, and other conveniences for the use of breeders.

Business men, said one of those well informed on the achievements of a livestock association, will profit materially through the increased prosperity of the farmers. By encouraging better and more livestock and through co-operative selling, the association can effect this increase in wealth, it is pointed out.

Want Fair Backing

Those backing the enterprise are firm in the belief that it will prove to the decided advantage of the Wilbarger County Fair Association to back the proposed livestock organization for the purpose of insuring better exhibits at the local exposition each fall. A concerted effort for better breeding in Wilbarger circles, it is pointed out, would prove a decided impetus for the fair.

"If we don't take some such action," was the comment of a prominent Guyer farmer yesterday, "there is no telling how hard hit agriculture may be in the future. We raise good animals now but find them hard to sell for a fair price due to the fact that buyers here are not accustomed to paying the level flooded stock is worth."

Thinks Worth While

"It costs a little to get started," said another well-known resident of the same community, "but I think such an association is certainly worth while. In Wheeler county, I remember, there is a live organization of this sort and it has accomplished a wonderful amount of good for the farmers."

The county agent points out the fact that a pure bred livestock association will greatly stimulate buying. Many will attend sales with no intention of making purchases, but will become enthused over stock offered, catch the spirit of the occasion, and make substantial buys. Others will purchase more stock than they had originally planned, he says.

WILL PROVE UP SECTIONS OF LAND IN NEW MEXICO

Mr. and Mrs. Harry Robinson and Mr. and Mrs. Frank Byrd left Wednesday morning by automobile for Stong, New Mexico, where they will take up claims on two sections of land. Mr. and Mrs. Robinson will prove up their land in seven months by virtue of Mr. Robinson's term of service in the army, and Mr. and Mrs. Byrd must live on their section three years. The prospectors plan to construct houses across the road from one another. A tent and a wagon built on an automobile will serve until the structures can be erected.

Are Wed By Local Pastor

Mrs. Lillie Burgess, formerly of Harrold, and R. W. Dyer, living four miles from Davidson, Okla., were married Wednesday morning at 11:30 at the home of Rev. S. H. Holmes on W. Paradise street. Only a small circle of immediate friends was present. The couple will make their home on Mr. Dyer's farm.

JUDGE DAY AND WIFE, WHOSE HONOR HE DEFENDED

Mr. & Mrs. Jean P. Day. INTL.

In her hour of sorrow, caused by the alleged accidental slaying of Lieutenant-Colonel Paul W. Beck, commandant of Post Field, Fort Sill, Okla., at the hands of her husband, Mrs. Jean P. Day stands stoically by her accused mate, Judge Jean P. Day, former Oklahoma Supreme Court Justice. The woman pays for man's perfidy, she declares, in corroborating her husband's story that the flyer attacked her.

TRAIN DILIGENTLY FOR STATE CONTEST

VERNON KNIGHTS TO STRIVE AGAINST TEAMS FROM LARGER CITIES

Twenty-four members of Vernon Commandery 33 leave next Wednesday for Fort Worth to compete in that city Thursday, April 20 for a large silver loving cup that will be offered to the best drilled team of Knights Templar in the State. Fourteen teams have entered the contest and the majority of them are from the larger cities of Texas.

The local knights have been drilling for nearly six weeks, and of late have paced up and down Main street four nights a week. The personnel of the Vernon team is made up exclusively of local residents with one exception, a knight from Harrold. Jim Bonnar, veteran captain of the world war, is drill master.

Bodyguard For Hawkins

The event sponsoring the competition will be the regular meeting of the Grand Commandery of the State of Texas. Vernon's team will serve further as a bodyguard to L. G. Hawkins, Grand Commander of the State, who will relinquish his office at the coming meeting.

Opposes Daylight Saving Plan

Dallas, April 12.—Business men of Texas are not in favor of the adoption of the daylight saving plan on June 1, as has been proposed by some of the cities of the north and east. At the request of one of the local chambers of commerce of Texas, the Texas Chamber of Commerce sent a questionnaire out to local chambers of commerce and to its own membership, asking their sentiment upon the daylight saving plan. Answers received in reply to the questionnaire indicate that the majority of Texas business men are opposed and a large number are indifferent, while few are in favor of the wartime measure.

ANOTHER STILL IN HANDS OF OFFICERS

MOONSHINE ESTABLISHMENT NEAR FARGO RAIDED WEDNESDAY

John Barleycorn, operating on an illicit basis, was dealt another solar plexus jolt in Wilbarger Wednesday afternoon when officers captured two stills and an alleged operator on a farm about twelve miles northeast of town.

One still was buried in the ground near a residence on the place, and the other was found on the second floor of the house. They were respectively of fifteen and twenty gallons capacity.

Bond for the accused man was set at \$500. He is said to have been a tenant on the place. The raid was conducted by county officers.

HUNTERS AT GUYER TAKE HUGE TOLL

MORE THAN 4,000 BUNNIES EX- TERMINATED IN DRIVE TUESDAY

More than 4,000 rabbits were slaughtered Tuesday at Guyer over a battle line that extended approximately three miles as eighty men and boys proceeded in a nine mile sweep to the river. The drive consumed the entire day and was probably the most successful staged in the county this year.

The roar of the guns, according to one of those participating, resembled the volleys of the world war. Had one end of the line not exhausted its ammunition shortly before noon the toll in bunnies would have been considerably greater. A calf was slaughtered, the men brought to their dinner at noon in cars, and the onslaught resumed immediately afterwards.

Plunge Into River

On one three acre patch where countless rabbits were hemmed in, 500 animals were killed. The drive continued until the hunters reached the river where the rabbits plunged in and were killed while swimming. According to one of those participating shortly before the end of the sweep was reached, the horde of rabbits resembled a great flock of sheep.

Another drive has been planned for next Tuesday at Guyer. Hunters will form about 9:30 with one end of the line on the road marking the boundary of Wilbarger and Wichita counties, and will extend west as far as Trisler of Guyer was in charge of the drive and will serve in the same capacity in the coming event. Everyone is invited to participate.

HALL AND ASSOCIATES TO COMMENCE DRILLING

A test for oil on section 20, block 5, H. and T. C. survey, about five miles southwest of Electra, will probably be started Monday, according to L. G. Hall, one of the operators. A rig and necessary machinery is now being moved to the location.

The test will be located on W. T. Waggoner land, Herb Dohler of Vernon and Phil E. Laughlin of Fort Worth are associates of Hall. The location is near a new field recently opened up southwest of Electra.

Asks For School Census

Scholastic enumerations from all county schools have not as yet reached the office of the county superintendent, and the fact is causing Mr. Hollar some concern. He points out that it is essential to send in returns early to the State Department in order to insure an apportionment for Wilbarger schools in August.

Firm Buys Meat Market

Parker-Douglas Grocery Co., on N. Main street, has purchased the meat market housed in the store, and the firm will hereafter kill its own meat. The market was owned for about a year and a half by F. A. N. O'Neal.

BIG ENTRY LIST POINTS TO FAST DISTRICT EVENTS

More Than 150 Contestants Await Crack Of Starter's Gun Saturday—Schools From Eight Counties Send Picked Athletes For Track and Field Events Here—Program Today.

More than 150 contestants are expected to appear at the fairgrounds Saturday morning and afternoon when schools from eight counties congregate to compete for honors in the district interscholastic track and field meet. A lengthy entry list prepared by J. A. Morrow, district athletic director, contains the names of a galaxy of stellar performers who promise to exhibit more than ordinary high school ability in the events here.

At 9 o'clock in the morning the meet will commence according to the schedule printed in Tuesday's edition of The Record, and will continue until noon. After an hour for lunch competition will be resumed and officials are desirous of finishing the meet by at least 3:30, or in time for many of the visitors to leave on the afternoon train.

Those Entered

Schools of Class A calibre entered are Memphis, Childress, Quanah, Wellington and Vernon. Crowell is also expected to enter in this division. In Class B from Wilbarger county the entries will be Tolbert, Harrold, and Guyer; from Hardeman county Bailey and Chillicothe; from Cottle county, Paducah, Buckeek, Hackberry, Ogden and Delwin; from Childress county, Kirkland, Union Flat, Garden Valley, High Point and Westcamp; from Hall county Ell, Lodge, Estelline and Hulver; from Collingsworth county Lillie, Dodsonville, Marella and Housley.

Stars in the meet will include Crouch of Chillicothe, an all-round performer; Lawlin of Tolbert, quarter miles and high jump; Clynch of Guyer dashes and jumps; Terrell of Kirkland hurdle and dash man; Lewis of Ell, hurdles and dashes; Vaughn of Harrold, weights; Leslie of Memphis, hurdles, quarter mile and field events; Coffee of Childress, sprints, broad jump and pole vault.

Vernon Speedsters Ready

Walker of Vernon is showing good form in the sprints, high jump and broad jump, and is leaping around nineteen feet in the latter event. Bramblett, Dawson and C. Reed are throwing the discus from ninety to one hundred feet; B. Reed and C. Reed are showing their heels to the best of them in the mile and the half mile and Langley is contributing with his efforts in the 880 yard event.

Bramblett and Small will also represent Vernon in the dashes tomorrow. The mile relay, Coach Morrow states, should be Vernon's strongest event. A quartet will be chosen from Farley, Langley, C. Reed, Walker and Small.

Literary Events Today

Literary events in the district interscholastic meet will commence with a short program at the high school building this afternoon beginning at 2 o'clock. Many visitors reached Vernon last night, and local hotels are well filled.

Events in this branch of the compe-

RABBITS OR COTTON CROPS

The Record has received so many authentic reports concerning the steady and ever increasing hordes of rabbits in Wilbarger county during the past few weeks that it feels warranted in using this means of calling attention to what could easily prove to be a more deadly crop destroyer than the boll weevil.

Several communities have recently staged rabbit drives and one at least has slain as many as four thousand during a single drive covering a comparatively small area. These communities report that their work has only made small inroads into the Jack Rabbit family.

In order to successfully combat these crop destroyers, the farmers need the immediate assistance of Vernon citizens. A county-wide rabbit drive might save the farmers thousands of dollars.

FIRE DESTROYS FAMOUS QUEBEC CHURCH.

Entailing a loss of approximately \$1,250,000, the historic Church of Saint Anne De Beaupre, in Quebec Province, Canada, was almost destroyed by fire. Some of the most sacred relics in the western hemisphere were housed in the famous edifice, which was used as a pilgrimage place for persons who believed in miraculous saving powers of the relics. The collection of sacred possessions was saved from the flames.

BABY LOSES LIFE IN POOL OF WATER

INFANT SON OF MR. AND MRS. R. R. RIGSBY DROWNS LAST NIGHT

Raymond Robert Rigbsy, 17 months old baby of Mr. and Mrs. R. R. Rigbsy living in northeast Vernon, drowned last night at the home of his parents in a small pool of water. The accident occurred about dark after the child had been playing in the yard, and had wandered to where a drainway from a milk house emptied.

Efforts were made to revive the little fellow, but proved of no avail. It is thought he was in the water only a short time, and when found the body was floating on top of the pool.

Funeral services will be conducted this afternoon at 5 o'clock from the Underwood parlors and will be in charge of Rev. C. A. Waterfield, Methodist minister. Burial will be in East View. Raymond was born October 10, 1920.

tion are expected to be finished by tonight. The excessive number of debates to be held, however, may necessitate some of these being held Saturday morning.

KILLOUGH AGAIN NAMED SCHOOL BOARD PRESIDENT

R. D. L. Killough was re-elected president of the Vernon school board at a meeting conducted today in the directors' room of the Farmers State Bank. A. F. Winston was made vice-president and T. L. Rouse will serve again as secretary.

New members sworn in at the meeting were W. R. Moore, J. P. King, A. F. Winston and C. T. Smith. A finance committee consisting of C. F. Smith, Emory Rhoads and A. F. Winston was appointed as well as a building, grounds and supplies committee consisting of J. P. King, T. L. Rouse and W. R. Moore.

At Baptist Church Sunday

Reverend Venting, teacher of Greek in the Baptist Theological Seminary, Fort Worth, will occupy the pulpit at the local Baptist church both morning and evening Sunday, April 16. Those who heard him speak last Sunday express themselves as being well-pleased with Reverend Venting, and considering him a very strong preacher.

Boy To Mr. and Mrs. Billy Norwood

Word has been received by Mr. and Mrs. H. W. Norwood of this city that a ten pound boy has arrived at the home of their son, Billy K., who lives in Hot Springs, Ark. Mr. Norwood was at one time in the employ of The Vernon Record.

Rural Schools To Close Next Month

Most Wilbarger county rural schools will close in about a month or six weeks, according to the county superintendent. The Crescent Cove school, however, will close next Thursday.

THIRTY-FIVE NEW MEMBERS FOR POST

AMERICAN LEGION CONDUCTS PLAYING CAMPAIGN HERE THURSDAY

Thirty-five new members were added yesterday to the roster of the American Legion in a whirlwind campaign conducted by the local post. Practically every ex-service man interviewed by the committee joined the ranks of the Vernon organization.

Plans have been laid to continue the drive until every ex-service man in Wilbarger county has been visited. Under the methods pursued yesterday by the former soldiers, refusal to their request is a remote possibility. A convincing solicitor, backed by a group of stalwart young men, proved irresistible yesterday in a majority of the cases.

A goal of 300 members has been set for May 1. The committee has requested that all ex-service men who have not paid their dues should settle this obligation promptly.

VERNON TOWN PLAYERS DEFEATED AT FREDERICK

Vernon's town team met defeat Sunday at Frederick, Okla., 2 to 1 against the aggregation representing that community. Frederick sent two counters over in the first inning before Dalmasse steadied down, and Vernon annexed its score in the third inning.

Those who played were Gilliland, c., F. Dalmasse, p., Ladd, lb., Carney, 2b., Teel, ss., Sneed, 3b., Key II, Perkins, cf., Howell, rf.

EASTER SERVICES AT QUANAH SUNDAY

DR. E. L. MOORE TO PREACH SERMON FOR LOCAL COMMANDERY

Dr. E. L. Moore, pastor of the Vernon Presbyterian church, will preach the sermon Sunday at the Easter services to be conducted by Vernon Commandery number 33 at the First Christian church in Quanah. An impressive program has been arranged by the local knights and scores of visitors are expected for the occasion.

Knights and ladies are invited to assemble at the Vernon Masonic Hall at 8 o'clock Sunday morning, and again at the Masonic hall in Quanah at 10 o'clock sharp. Knights are to be in full uniform.

A service car will accompany the local delegation for the purpose of attending to tire or engine troubles of the motorists. Dinner will be served the visitors in the basement of the church following the services. The local drill team will stage exhibition maneuvers at Quanah Sunday.

TO VOTE ON ISSUE OF BONDS FOR NEW COUNTY HOSPITAL

Proposition Will Be Submitted To Voters May 16—Petition Carries 444 Names—Fifty Thousand Dollars To Be Asked For Construction—Election Judges Named.

Voters of Wilbarger county will be called upon May 16 to express their will concerning the construction of a county hospital to cost \$50,000, according to an order issued Monday, April 10 by the commissioners' court. A petition carrying 444 names was presented to the court Monday.

Fifty thousand dollars, it is thought, will build and equip the hospital and provide all necessary permanent improvements. The bonds are to be payable serially within any given number of years, not to exceed forty years, and will bear interest at the rate of five and one-half per cent a year.

Election Officers

The polling places and presiding officers for the election will be: West side court house—E. P. Robertson; east side court house—T. L. Rouse; Oklahoma—J. F. Stark; Harrold—H. P. Burgess; Mack school house—E. M. Schaub; Lockett school house—S. C. Davenport; Kincheloe school house—O. K. Hafer; Tolbert school house—Will Cummings; Odell—J. M. Collins; Doans—P. M. Emmett; Hinds school house—W. J. May; Hancy school house—Claude Price; Guyer school house—E. B. Willis; Fargo—H. E. Key; Elliott—R. G. Goss; Farmers Valley school house—C. H. Randal.

THOMAS TO SPEAK HERE

Candidate For U. S. Senate Plans Meeting In Vernon Next Wednesday

Cullen F. Thomas, candidate for the United States Senate, will speak in Vernon Wednesday night, April 19 at 8 p. m., according to an announcement reaching The Record. The meeting will in all probability be in the district court room.

Mr. Thomas is planning a short trip into the section embracing Vernon, and will speak at the following places on these dates: Electra—Wednesday, April 19 at 2 p. m.; Vernon—Wednesday, April 19 at 8 p. m.; Chillicothe—Thursday, April 20 at 2 p. m.; Crowell—Thursday, April 20 at 8 p. m.; Matador—Friday, April 21 at 2 p. m.; Paducah, Friday, April 21 at 8 p. m.; Quanah—Saturday, April 22 at 2 p. m.; Odell—Saturday, April 22 at 8 p. m.

The candidate is a member of the firm of Thomas, Frank, Milam and Touchstone, attorneys of Dallas. He is said to be a good speaker.

OIL STOVE CAUSES DISASTROUS FIRE AT J. W. SHIVERS RESIDENCE

Fire shortly before 7 o'clock Wednesday morning completely destroyed the J. W. Shivers home on W. Texas street after an oil stove in the kitchen had exploded. The complete attendant loss was in the neighborhood of \$4,000, \$3,000 of which was covered by insurance.

Due to the fact that the residence was located out of the area supplied by city water, the fire department was unable to render appreciable assistance. Thirty-five gallons of chemical were poured on the blaze, but the flames had gained too great headway by the time the trucks reached the scene.

Mr. Shivers lighted the stove soon after he arose, and was feeding stock a short distance from the house when he noticed heavy smoke issuing from the windows. Only a few pieces of furniture were saved. Fire broke out Tuesday at the Shivers home from the same source but was extinguished by chemicals.

HERE AND THERE OVER OUR STATE

San Angelo, Texas, April 13.—With instructions to raise a fund of \$2,000, have plans and specifications drawn and actual construction started, a committee appointed by the Board of City Development has begun work on a camping ground for automobile tourists. There will be provided a rest room, water for washing and cooking, places for open fires and a bath house. The park and the municipal golf links now under construction are expected to prove attractive to visitors.

Abilene, Texas, April 13.—Abilene Christian College will at an early date erect a modern electric sign on the college campus, bearing the name of the institution. The sign will cost about \$1,000 and the various students' societies are now engaged in raising money to pay for it.

Amarillo, Texas, April 13.—Three banquets have been arranged for the Panhandle Press Association during its convention here April 21 and 22. Congressman Marvin Jones and E. O. Thompson, proprietor of the Amarillo Hotel and the Board of City Development, will be hosts.

Three theatres of the city will be thrown open to the visitors at all performances. The meeting this year is expected to be the biggest held in the history of the organization.

Ballinger, Texas, April 13.—A total of 32,705 rabbit skulls have been cashed in at the County Clerk's office here since Feb. 15, and with two days yet in which the bounty paid by the county holds good a rush is being made for the clerk's office, and it is expected that the total will reach about 40,000. The county authorized the payment of a bounty on all rabbits killed between Feb. 15 and April 15. Farmers are jubilant over the big saving they will realize during the crop-growing season on account of the rabbit pest.

Brady, McCulloch, Co., Texas, April 13.—The Commissioners' Court of McCulloch county has let a contract to C. R. Horn and Arthur Wood, both of Brady, for the parking construction to be done on the public square. The court lawn will be enlarged, bordered with cement curb and walks and 4,000 yards of dirt will be placed on the lawn to give it proper slope and drainage.

THINGS ARE "LOOKING UP"

Virtually every important business
weather sign points to distinct, though
not drastic, improvement in conditions
and activity, according to a writer on
business conditions whose observations
are daily printed in many papers.Here is the news from one financial
page, which shows clearly the trend
of trade, with which even the coal
strike is not allowed to interfere:The El Paso Pacific railroad will be-
gin work immediately on improvements
to cost \$2,000,000.The Pennsylvania railroad will im-
mediately spend \$8,000,000 in improve-ments, and probably more later in the
year."Marked improvement in agriculture
and a better outlook for business gen-
erally," is the announcement of Acting
Director Davis of the War Finance
Corporation.Both prices and orders have improved
in the steel industry.Portland, Oregon, reports a rapid
gain in shipping.The largest copper mining companies
have resumed operations on an 80 per
cent basis.Detroit automobile concerns have
taken back thousands of workmen dur-
ing the past week.These are signs of the times, straws
in the business wind, and the wise
manufacturer or merchant will trim
his business sails accordingly.

THE DAY OF HOPE

To the thoughtful, Easter Day is
without parallel. To them it is proof
unbounded of life eternal, of hope in-
exhaustible, and of promises to come.with the sublime figure of the Resur-
rection before him no man need de-
spair.Disregard the authenticity of the
event and embrace it as a myth, but it
still remains the most inspiring, com-
forting hope that has ever come down
the ages. It strikes off the desponden-
cy of the unbeliever and makes him
view his future with a confidence root-
ed in his faith and guaranteed by the
event which gave to the world a new
chart of life.Easter finds a Christian world in a
wondrous spirit of tenderness and ex-
altation. As an event in the history
of Christianity it is the great day of
hope, new life, the bursting forth of
energy from man and plant life, and
the triumph of the spirit over the body.

REPUTATION BUILDERS

The safest way to avoid purchasing
defective goods is to patronize mer-
chants who have reputation to sustain.
The regular advertiser, engaged in
building a reputation for fair dealing,
has invested a certain amount of his
capital in "telling folks about it."Generally speaking, he expects that
if he sells to his customer once he
will sell to him again. To make his
advertising pay, he must give a square
deal. Sometimes he even spends more
to get the customer into his store the
first time than the profit on the first
sale amounts to.Yet, in the long run, the advertiser
knows that a purchase the first time
at his solicitation will mean a second
and third time at the volition of the
customer. His faith in himself jus-
tifies the faith the buying public re-
poses in him.

TO HELP THE LEGION

Patriotic as well as music impulses
may be gratified next Wednesday and
Thursday when an old fiddlers' con-
test will be staged at a local theater
under the auspices of the American
Legion. Some of the most adept tal-
ent in the State will be brought to
Vernon at that time for the purpose
of swelling the coffers of the local post
and making club rooms here "more
like home."Legion members in Wilbarger county
have been handicapped by prevailing
depression in a laudible ambition to
provide themselves with club rooms of
merit. Ingenuity has been called
into play by the dauntless ex-service
men, however, in their determination
to effect the goal.Comfortable club rooms where men
may congregate in leisure hours for en-
joyable relaxation in games are a dis-
tinct social asset. The novel enter-
tainment to be provided next week will
furnish Wilbarger folk with an oppor-
tunity to express their sanction in ma-
terial fashion.Only 14 per cent of the crimes reg-
istered by civil authorities in the last
six months can be attributed to pre-
vious offenders, according to E. E.
Quinding of Washington, D. C., an au-
thority on the history of crimes. Based
on statistics which he said had been
obtained from official prison records,
Mr. Quinding estimated that 86 per cent
of those convicted were connected with crime
in the last half year, have been new
offenders.

DOANS PICNIC DAY BECKONS COUNTRY FOLK ON MAY 6

The Doans picnic, a gala day in
the hearts of country folk for miles
around the community, will be ob-
served Saturday for the thirty-
eighth annual time. There is an
unwritten agreement from year to
year to meet in the pretty grove three
miles west of Doans for an old-fash-
ioned picnic the first Saturday in
May, and when the morning of that
festal occasion dawns, busy hands
are engaged in every farmhouse with-
in a great radius in putting the finish-
ing touches to huge baskets of food.In 1884, C. F. Doan, one of the
earliest settlers in Wilbarger county
and a native of Ohio, prevailed upon
members of his family and two others
of the neighborhood to "go down to
the grove and have a picnic." The
custom in the little village where
Mr. Doan had been born was to fill
baskets the first Saturday in May
and spend an outing in the woodsfrom early morn until the shadows of
evening fell.Would Carry Out Custom
So this pioneer Wilbarger settler,
far from his native heath, longed to
perpetuate a tradition so simple and
yet so relaxing from the ordinary
cares of daily life. Accordingly, ac-
companied by his wife, two daughters
and two "neighbor ladies" he laid
the foundation for what has since
proved to be a festival of more than
picnic importance.From all directions they will come,
these happy picnickers three weeks
from tomorrow. By 9 o'clock in the
morning countless roads will be con-
tributing their quota of fun seekers
as though to the gathering of a clan.
There will be the same kind of mys-
terious summons, a call as though
breathed into the air and caught up
instantly by every inhabitant for
miles around.The man who is always on the fence

that there has been too much razing

"EAST IS EAST" IN GERMAN CAPITAL

The murder of the Hindu Singh, one of the most interesting criminal cases that has come before the Berlin courts since the war, has brought to light the fact that a surprisingly large and flourishing Oriental colony now exists in the German capital.

The Egyptian unit alone, composed chiefly of members of the National party now studying at the Berlin University, is three hundred strong.

The majority of these are faithful followers of Mohammed, with a sprinkling of young men of Copt descent who have been converted to the Christian faith. Clubs and societies, such as the "Orient Club," the "German-Persian Club," the "German Society for Islamic Culture," the "Egyptian National Party," all serve to indicate that an effort is being made to rebuild the bridge to the Orient, weakened and nearly wrecked during the war.

In this Oriental colony are the usual vendors in bobbies, cigarettes, and rugs, but a newer and more novel element are those who have joined the great army of moving picture actors—if not as stars, at least as supernumeraries. They figure for example, in the mammoth film of "Pharaoh's Wife," soon to be released, and even the sandy lowlands of the Havel and the Spree can be realistically transformed into desert wastes if a number of mulattos "sons of the desert" are used to lend genuine color to the scene.

Curiously enough, Turkey, although a whitened ally of Germany, has no official representation in Germany at present, and this is true both of the government at Constantinople and the one set up by the Kemalists at Angora.

Turks Are Active
But, despite this fact, the Turks are by no means inactive and no sooner had Germany transformed itself into a socialist state, displaying the extreme limit of indulgence to men of all political creeds, than a Turkish Socialist party sprang into existence in Berlin, established an organization of "Workers and Peasants," published a paper adorned with the picture of Marx and Jaures, and issued a proclamation reading:

"Above the wild strains of war's alarms sounds the deep booming voice

of the one eternal prophet, crying: Proletariat of all lands, unite!"

The name of this prophet may have been Allah, but it was more probably Lenin, as the Turkish Socialist party proved itself to be a genuine offshoot of the great parent tree of Bolshevism.

Before the war the Turkish government owned an imposing embassy home in Berlin's fashionable Tiergarten district, connected with which was a chapel where the Turkish colony assembled for religious service. The Mohammedan colony has its own burying ground on the outskirts of Berlin, where lie political refugees of name and rank, as well as the flotsam and jetsam which hoped to find in Berlin a haven for their storm-tossed barks.

Many women are also buried here who, in the confusion created by the war, escaped from harems only to find themselves caught in the worst toils of a "heathen" city. In order to preserve this cemetery from decay, the Mohammedan colony is endeavoring to realize funds by the sale of the sacred Koran at fifty marks a copy.

But the real focussing point for those who have either a scientific or a commercial interest in the maintenance of close relations between Germany and the Orient has also been the Seminary for Oriental languages, where formerly classes were held in every language and dialect known to Asia and Africa.

Here one could be initiated into the mysteries of Suaheli, the language spoken by the natives of East Africa, the negro dialects of the Western coast, of Hausa, the trading language used in a wide expanse of territory, stretching from Tripoli to Camerun. Here the Germans fitted themselves to carry Germany's commercial banner into Persia, Turkey, China, Japan, and learned the three Arabian dialects of Egypt, Syria and Morocco.

The loss of Germany's entire territory possessions has naturally put a damper upon the enthusiasm in this direction, but the seminary is still in existence, and will gradually become an institution for the acquisition of specialized knowledge on the manners and customs, the economic life and the governmental forms of the countries of Asia and Africa.

GOLDTHWAITE BUSINESS MEN AID TURKEY INDUSTRY

The following article taken from the Goldthwaite Eagle is reproduced here because many people in Texas are interested in the possibility of turkeys and it is believed that this plan could be adopted with reasonable success in many sections of Texas.

A plan has been suggested to the business men of Goldthwaite whereby several thousands of dollars can be added to the resources of Mills county. While simple, the plan merits the careful consideration of the citizens. In a nutshell it is this: Place turkeys on every farm in the county.

Offers Opportunity

Following the almost complete failure in last year's cotton crop and the excellent market offered for turkeys, the attention of many former cotton farmers has been turned to turkey and other poultry raising as a leading sideline. The amount paid out for turkeys here each year—in cold cash—will surprise many who have looked upon this as a very small business engaged in exclusively by the women on the farms.

The turkey market is also the only one which has not gone down to such

an extent that raising is unprofitable. On account of the fact that the northern states—becoming more thickly populated—have been compelled to almost stop raising the birds, it seems as if the southwestern states must supply the entire United States. And on account of the peculiar character of the demand for turkeys, almost entirely for festive occasions, there is very little if any danger of the market lowering to such an extent that the raising of them would be unprofitable.

Loans Premises
The plan as suggested by county agent W. P. Weaver, is for the business men especially and all others who can do so, to loan these people suitable places for the raising of turkeys and who are not at the present time able to purchase their own turkeys for breeding purposes and turkey eggs for hatching, the lenders to be repaid in the fall when the crop is sold.

The man who loans the turkeys runs very little risk of losing a cent on the investment, as the turkeys, when returned will bring as much money as they are worth now and a suitable amount of interest should be paid by the raiser for the use of the money.

BUTTER CONTESTS IMPROVE QUALITY ON FARM OUTPUT

County and State butter contests, a feature of South Carolina extension work for women last year, accomplished much in the way of improving the dairy industry. South Carolina is not a dairy state. It uses annually about \$14,000,000 worth of dairy products shipped from other states. Some of this importation is due to the fact that while there is a large amount of farm butter produced within the state, no steady demand for it has been developed. For the purpose of creating an interest in this farm-made butter, and to teach the women to make a better product, contests which were open to home-demonstration club members were started during 1921 in 11 counties.

Butter demonstrations were given in all the women's clubs, and all interested persons were invited to a demonstration by the State specialist at the county seat. Three hundred and sixty women and girls enrolled for the contests, and of these 126 sent butter for every judging. Without exception there was a great improvement in the packages brought to market and the quality of the butter sold, as the women learned to what extent the butter is affected by the temperature used for ripening and churning, the care and cleanliness in handling and the feeds for the cow.

"Contest butter," sold very rapidly at the various club markets, and those who did not enter the contest were obliged to make improvement in the quality of what they offered for sale or lose the market for their butter. Extension workers report to the United States Department of Agriculture that the butter produced in all parts of the State has been perceptibly improved as a result of these contests.

HOME DEMONSTRATION WORK ACTIVITIES IN TEXAS

Mr. T. O. Walton, director Extension Service A. & M. College of Texas, is in receipt of a letter from Miss Madge J. Reese, Field Agent Extension Methods, States Relations Service, U. S. Department of Agriculture, Washington, D. C., which is highly complimentary of the Home Demonstration work done in Texas during the year 1921 under Miss Laura J. Neale, State Home Demonstration Agent. The letter says: "The Texas 1921 State Home Demonstration report and the forty-one reports of the county home demonstration agents have been read with much interest."

"The reports do not represent statistically nor narratively all the fine home demonstration work you have done in Texas this past year, but the majority of the reports are splendid. There was a marked improvement in the county reports over those of 1920. The reports show that the agents are planning their work more systematically. You are certainly to be congratulated in having such an enthusiastic and hard-working corps of state and district workers. We are very much pleased with the work the district agents are doing in the unorganized counties to create interest for organization and for home demonstration agents. You can be very proud of your enrollment of 7,005 women, an increase of 131 per cent."

Pleased With Work
"We are pleased with the most excellent report of the poultry work done by the women. You will note that you rank second in the number of women demonstrators. You rank first in the value of poultry products sold by women, and have done some good poultry work with the girls. There were more steam pressure canners sold in Texas than in any other Southern state, and your work in home improvement and home conveniences stands close to the top."

"We judge from the reports that sewing and dress forms have been that you have gotten some good results. You have made more dress forms than any other southern state."

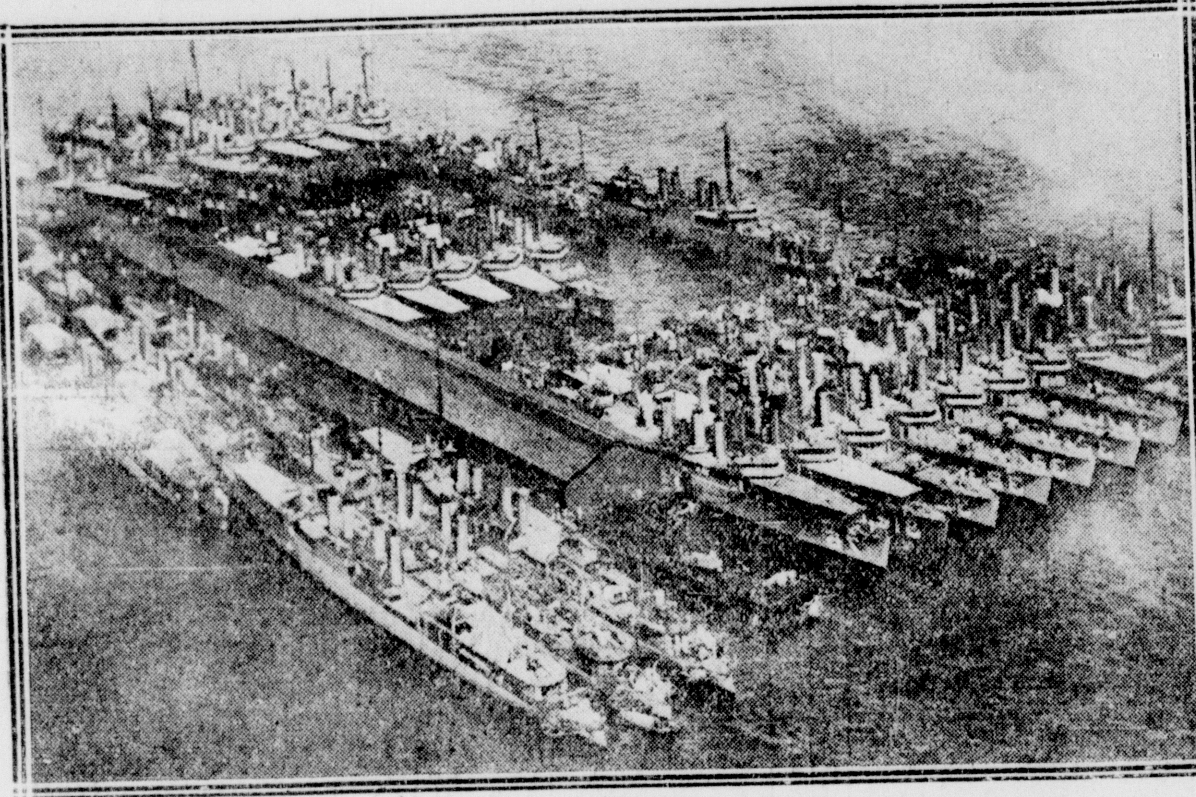

"The report of the home demonstration work with the negroes is most creditable. Texas has done more home demonstration work with negroes than any other of the four states in my territory."

Gives Rank

"In my visits to the states I am often asked how they rank with other states in enrollment, etc., and I have made a study of the rank of the fifteen southern states in my territory in the several activities based entirely upon the 1921 reports, which is as follows: Total enrollment, sixth; total reporting, fourth; per centage reporting, sixth; number garden demonstrators, sixth; orchard demonstrators, fifth; vineyard demonstrators, fifth; canning of food preservation, fifth; poultry demonstrators, second; total value of poultry products used at home, first; steam pressure cookers bought, first; families using milk because of educational work, first; demonstrators in sewing and handicraft, second; demonstrators in dress forms, first; demonstrators in making hats, second; demonstrators in installing water systems, fifth; demonstrators in installing lighting systems, fifth; rest rooms established, fifth; and country schools serving hot lunches, fifth."

Because there is a shortage of funds for operation of the United States Navy, one hundred and fifty destroyers, "greyhounds of the sea," are to be taken out of commission. Sixty-eight of the vessels will be docked at San Diego, Cal., as shown in this remarkable airplane picture, while eighty-two will be berthed at the Philadelphia Navy Yard.

FIRST PHOTO OF MINERS WALKING OUT AT SCRANTON.

Here is the first authentic picture of coal miners walking out on strike at Scranton, Pa. Because they say the operators declined to negotiate new working agreements with them, they laid down their tools along with thousands of other workers. Practically 4,500 anthracite and bituminous mines in twenty States now are idle because of the strike. Approximately 550,000 men are affected. A sufficient supply of coal to last three months is above ground, officials of the mines have announced, and the effects of the strike probably will not be felt for some time to come.

shortly become a thing of the past. The means to this much desired end is the long-sought anti-pneumococcus serum, which will do for the active principle, of this dread disease what the anti-diphtheritic serum has done for the former scourge of childhood. Dr. Guthrie promises the details of his discovery to the medical profession in a short while.

Governor of the Philippines Leonard

Wood is rushing improvements at the Cullion leper colony, and has stated that many have died from this dread disease who might have been saved had better conditions prevailed. The new treatment with chaulmoogra oil has worked such wonders with the ancient pestilence that the fact is overlooked that even under the most favorable circumstances a leper may not necessarily recover from this treatment and that it is hardly to be expected that any will unless hospital surroundings are of the most favorable character.

Surgeon General Cummings of the Public Health Service draws attention to the progress made in combating disease as shown in vital statistics. "The war against disease is slowly being won," he stated. "It has not a few triumphs to its credit. Some of these are well reflected in the annual death rate in the United States which during the last 20 years has dropped per hundred thousand of the population for typhoid fever, from 35.9 to 9.2; for measles from 12.5 to 3.9;

for scarlet fever, from 10.2 to 2.8; for diphtheria, from 43.3 to 14.7; for tuberculosis, from 201.9 to 125.6; for pneumonia, from 180.5 to 123.6 and for all causes from 17.55 to 12.88. Incidentally yellow fever has been eradicated and smallpox, plague and typhus are being held at bay."

NEWLY ORGANIZED COMMISSION STARTS ROUTINE DUTIES

Important Committees Appointed Tuesday By Mayor At Initial Gathering Of City Heads—School Board Named—Approve At First Reading Bill To Limit Filling Stations.

In its first regular meeting since the recent city election, Vernon's board of commissioners and mayor Tuesday perfected their organization and disposed of a number of details relating to the city government. Committees were appointed by Harry Mason, mayor, and W. M. Blackwood made mayor protem.

School trustees holding over for one year are T. L. Rouse, Emory Rhoads, and R. D. L. Killough. Those who will serve two year terms are W. R. Moore, J. P. King, A. F. Winston and C. T. Smith. The library board is composed of J. A. Dixon, Cecil Storey, W. W. Bennett, I. S. Sewell, Mrs. J. A. Carney, Mrs. S. C. Hogsett, and Mrs. E. C. Christian.

Those On Committees
A building committee is composed of E. M. Rogers, E. B. Owen, and W. M. Blackwood; J. H. Pendleton, W. M. Blackwood, and E. B. Owen compose the finance committee; E. B. Owen, W. M. Blackwood and J. H. Pendleton are on the street and bridge committee, and W. M. Blackwood, E. M. Rogers and J. H. Pendleton make up the fire, water and sewer committee. The first named in each committee is chairman.

W. B. Abbott was appointed meter reader for the city. An order was passed calling for the removal of all signs from the library building.

Limit Filling Stations
An ordinance, prohibiting the further construction of gasoline filling stations on streets or alleys in Vernon was passed at its first reading. J. H. Pendleton and E. B. Owen, new commissioners respectively from the west and east sides, were sworn in last Saturday.

Further business of the meeting Tuesday consisted of issuing T. A. Murray a permit to remove the iron railing on the north side of what was formerly known as the White-A-Wake store and to substitute over the excavation glass or concrete. Water mains on S. Mesquite street were ordered extended two blocks. U. S. Davis was issued a permit for the construction of an iron clad building with brick front on lot six, north addition.

A discount of women, which is accelerating world progress, it is indirectly threatened because of the European situation which demands about 10,000,000 women to live matchless lives asserts Professor Patrick Geddes, famous European sociologist, member of the faculty of St. Andrew's University.

TEXAS CROP REPORT

The general state-wide condition of winter wheat on April 1 is estimated to have been 57 per cent of a normal or full condition and reflects the severe fall of conditions which prevailed over the western half of the state from seeding time until March of this year. A great deal of this territory was extremely dry with many sections in need of rain from August 1921. As a result planting was made in very dry ground, some sprouted and died, some never sprouted and was entirely lost, and some remained in the ground without sprouting until the February and March rains. It is extremely doubtful if the latter will tiller or stool properly and make much of a crop with the late start and living over no dormant period. In all cases stands have been injured even where growth was started last fall and the present prospects point to a very considerable abandonment.

Shows Improvement
On the other hand the present condition shows a marked improvement over the December condition which was but 42 per cent of normal and is due primarily to the February and March snow and rain since moisture has been, throughout, the limiting factor. The improvement in condition has come, in a large way, from the black land belt of central north Texas which has experienced a marked improvement in prospect to make a good crop.

District reports show that the poorest condition exists in the South Plains which with approximately 30 per cent of the acreage, shows a condition of from 30 to 35 per cent, the North Plains, with approximately 30 per cent of the acreage, shows a condition of from 55 to 60 per cent while the North Texas, with approximately 40 per cent of the acreage, shows an average of 78 per cent normal.

It is not possible, at this date, and under the existing conditions, to forecast just what the outcome will be. It will be necessary to have some warm growing weather and time to determine just how the plant grows off, the effect on the stand and the abandonment before anything reliable can be given.

Breeding Sows
The number of breeding sows in the state, as compared with the number on hand a year ago, is estimated to be 101 per cent and is but a nominal increase which might easily be expected. The Panhandle and south sections of the state show considerable increase while the central belt of the state shows little change if any and all of east Texas and southwest Texas shows some decrease.

Labor Supply and Demand
The present supply of hired farm labor, at current rate of wages, as compared to that of a normal supply is 100 per cent. The present demand for hired labor is 80 per cent. These figures tend to show that the supply approximates the pre-war supply of such labor while the demand lags far behind. The present tendency is to hire only what farm labor it is absolutely imperative to hire or to limit farm operations entirely to what can be done with the available labor of the farmer and his family. As some have expressed it, the farmer is loathe to burden himself further and pay for farm labor with borrowed money considering the future prospects which he faces and under present conditions. These figures given above indicate that the ratio of supply to demand is 125 or, in other words a 25 per cent surplus supply.

AUTOMOBILE PULLMAN TO SERVE SIX TOWNS

San Angelo, Texas, April 13.—The operation of what is said to be the first auto pullman service in Texas or the southwest will begin May 1. Auto pullman cars will on that day start operations from San Angelo and San Antonio, in either case going from one town to the other. This new service is to be placed in operation by the San Angelo & Gulf Transportation Co.

J. W. Owens and E. G. Potter both of San Antonio are the promoters of the new company. There will be double daily service between San Angelo and San Antonio. The day service will be by auto busses of the latest approved type. The night service will be by auto pullman cars.

ELECTION NOTICE
THE STATE OF TEXAS,
COUNTY OF WILBARGER:
On this, the 10th day of April, 1922, the Commissioners' Court of Wilbarger County, Texas, convened in regular session, and the regular meeting place thereof in the Court House of Vernon, Texas, the following members of the Court, to-wit:
E. L. McHugh, County Judge; A. M. Bourland, Commissioner, Precinct No. 1; O. A. McCabe, Commissioner, Precinct No. 2; J. S. Archer, Commissioner, Precinct No. 3; J. M. Luttrell, Commissioner, Precinct No. 4, being present, and passed the following order:

It was moved by Commissioner O. A. McCabe, and seconded by Commissioner J. M. Luttrell, that there be submitted to the qualified voters of said County who are property taxpayers therein, the proposition for the issuance of the bonds of said County in the sum of \$500,000.00 for the purpose of establishing and equipping a County Hospital and providing all other necessary permanent improvements in connection therewith, the election to be held on the 15th day of May, 1922; the motion carried by the following vote: Commissioners A. M. Bourland, O. A. McCabe, J. S. Archer, and J. M. Luttrell voting AYE; None voting NO.

Thereupon the following ELECTION ORDER was adopted: "The Commissioners' Court of the County of Wilbarger, Texas, do hereby certify that the foregoing is a true and correct copy of an election order passed by the Commissioners' Court of the County of Wilbarger, Texas, on the 10th day of April, 1922, at a regular meeting of said Court, a quorum being present, which order is of record in Book 5, Page 118 et seq. of the Minutes of said Court, and which said Minutes have been duly signed by the County Judge and the County Commissioners present."

"Shall the Commissioners Court of the County of Wilbarger, Texas, be authorized to issue bonds of said County in the sum of Fifty Thousand Dollars (\$50,000.00), payable serially within any given number of years, not to exceed Forty (40) years, at the discretion of the Commissioners' Court, bearing interest at the rate of five and one half per centum (5 1/2%) per annum, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of establishing and equipping a County Hospital and providing all other necessary permanent improvements in connection therewith, as authorized by Chapter 1, Title 18, Revised Statutes of Texas, 1911, and amendments thereto?"

The polling places and presiding officers of said election shall be respectively as follows:
At the West Side Court House, with E. P. Robertson as presiding officer;
At East Side Court House, with T. L. Rouse as presiding officer;
At Oklaunion, with J. P. Stark, as presiding officer.

COUNTIES ASSESSED TO BUILD NEW PARK

PROJECT LAUNCHED TO CONVERT PALO DURO CANYON INTO SCENIC GROUNDS

Based on its proximity to the Palo Duro Canyon, Wilbarger county has been assessed \$125 for the purpose of converting the canyon or parts thereof into a district State or national park. Other counties have been assessed in like proportion.

The matter of contributing to the project will be taken under advisement by the county commissioners and the local Chamber of Commerce. Details concerning the enterprise have been received by those bodies here as follows:

Consider Organization

"On March 24 a meeting of representatives from the Panhandle Plains country of Texas was held in Amarillo for the purpose of perfecting a permanent organization of the Palo Duro Park Association. The large number of delegates present were enthusiastic over the making of the Palo Duro Canyon, or parts thereof, into a district, state or national park. J. N. Riggs, chairman of the association, called a meeting of the directors for the purpose of considering financial aid, surveys and other dependable data, including options, prices, etc., that might be available when the question would be presented to the Legislature.

"Realizing that funds will have to be raised to secure the data mentioned and to make proper preparation for legislative assistance, and the employment of a field man to complete the surveys and options, and promote the project according to the directions of the Association, it was deemed advisable by the directors to raise a budget of \$10,000 in the various counties, appropriating to each its pro rata part according to its geographical relationship to the canyon.

Basic of Assessment

"The following counties have been

assessed the amounts indicated:

Armstrong \$500.00; Bailey, \$125.00; Baylor, \$125.00; Carson, \$200.00; Terrell, \$200.00; Castro, \$125.00; Childress, \$200.00; Cochran, \$125.00; Collier, \$125.00; Collinsworth, \$200.00; Crosby, \$200.00; Dallam, \$200.00; Deaf Smith, \$125.00; Dickens, \$125.00; Donley, \$200.00; Floyd, \$200.00; Ford, \$125.00; Gray, \$200.00; Hale, \$200.00; Hall, \$400.00; Hansford, \$125.00; Haskell, \$125.00; Hartley, \$125.00; Hemphill, \$200.00; Hockley, \$100.00; Hutchinson, \$125.00; King, \$125.00; Knox, \$125.00; Lamb, \$125.00; Lipscomb, \$125.00; Lubbock, \$200.00; Moore, \$125.00; Motley, \$125.00; Odessa, \$125.00; Odham, \$200.00; Parker, \$125.00; Potter, \$125.00; Randall, \$200.00; Roberts, \$125.00; Sherman, \$125.00; Swisher, \$400.00; Wheeler, \$250.00; Wilbarger, \$125.00.

Great Possibilities

"There is no doubt but what the Canyon if made into a State or National park, will be one of the greatest assets of the entire Southwest. Its battlements and dizzy heights, its high colorings and varying shades, its huge crevices in the face of the earth with their precipitous walls rising thousands of feet on each side, places it among the greatest and most beautiful scenic parks of the United States.

"We want your cooperation; we need your assistance, morally and financially. We must have the backing of every county in this part of Texas to carry out the project.

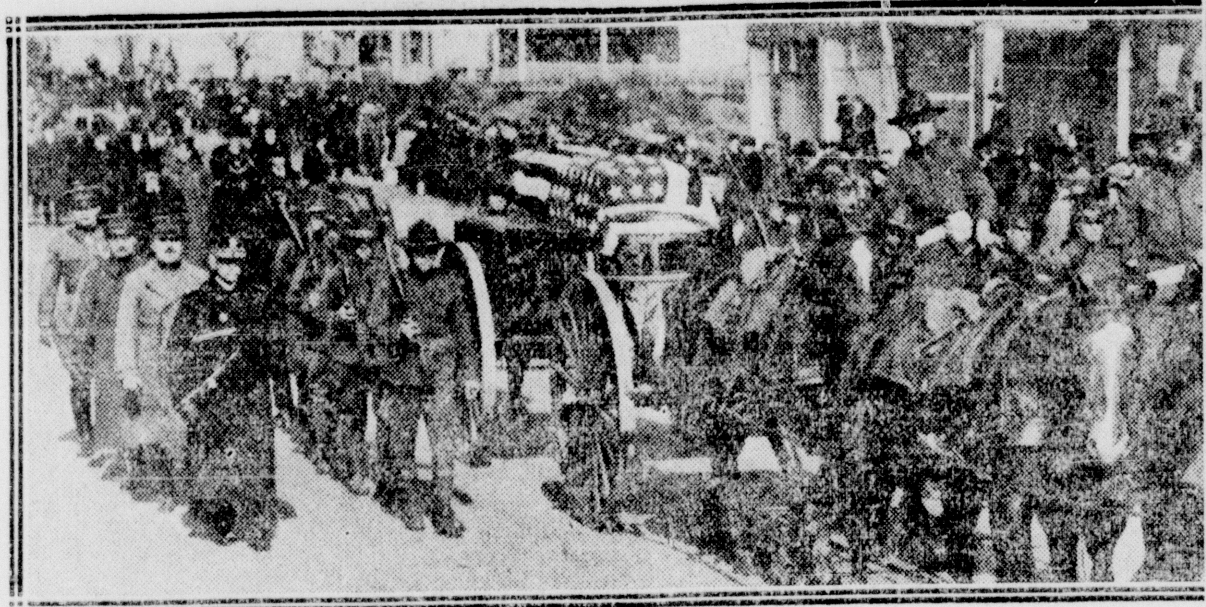

"Let me hear from you at your earliest convenience. Let me know the sentiment of your people, the probability of raising your part of the budget, either through your county commissioners, local chamber of commerce, or private subscription.

"With the kindest regards, and assuring you of our hearty co-operation towards securing a beautiful playground for the great Southwest, I am, Yours very truly,

"O. V. Vernon, Secretary."

LAST OF HEROIC DEAD BROUGHT HOME.

The last of the heroic dead of the A. E. F. have been returned to American soil and laid to rest. In New York, following the arrival from France of the last 1,200 bodies, a blindfolded soldier picked a body at random, and it was honored as symbolic of the entire group of gallants. The caisson shown here is bearing the body of Charles W.

SAND STORM WORKS HAVOC OVER COUNTY

FARMERS FORCED TO REPLANT CORN IN MANY SECTIONS OF WILBARGER

Farmers of Wilbarger county, especially those in sandy land sections suffered materially early this week through the severe sand storm that manifested itself over a wide section. A gale, carrying with it the worst deluge of sand in years, swept over the county Monday, and Wednesday there was again a prevalence of gusts and attending dust clouds.

Most damage was done to corn, and much of the crop will have to be replanted. Wheat and oats were also hurt, the blasts tearing them from the ground. Much moisture accruing from the heavy rains of last week-end was sapped from the earth by the winds.

School Dismissed

In one county community at least

school was dismissed for the day during the storm Monday. Men and animals sought shelter from the heavy red mist of sand which obliterated the landscape.

In town the sand was mostly a cause of annoyance. Housewives and merchants were forced to see their rooms fairly deluged under the sifting sand which sought its way through every crack and crevice in the buildings. Many gardens, too, were practically destroyed by the heavy wind and shifting drifts of sand.

HOW EARTHQUAKES MAKE OWN RECORDS

If an earthquake takes place at the other side of the world it writes its own record on the delicate instrument at Georgetown University, at Washington, D. C.

Next morning you will see in the papers that the instruments have recorded an earthquake of great violence which took place in South America. It may be days before news comes through by telegraph from the scene of the upheaval to confirm the instrument's message.

The seismograph, as the earthquake recorder is called, consists of a revolving drum and a tiny mirror. The latter is balanced so delicately so that the slightest tremor of the earth's crust will set it dancing. The drum, which is turned by clockwork, is covered with a roll of sensitized photographic paper. The mirror focuses a little point of light, reflected from a brilliant lamp, on to the paper.

So long as nothing is happening the mirror remains at rest and as the drum revolves a perfectly straight line is traced on the paper by the point of light. But as soon as a shock occurs the mirror is agitated and the line becomes a zigzag.

A stone thrown into a pond sets up ripples which move outward in ever-widening circles until they reach the edge. An earthquake produces the same results, except that the ripples are formed in the earth's hard but slightly elastic crust.

Fortunately, serious earthquakes are rare, but hundreds of small shocks take place every day, and seismographs of the most delicate type record them all.

Celebrates Birthday

Mrs. Tom P. Lisman Jr., entertained with a party Tuesday, April 11, in honor of the fifth birthday of her little daughter, Dorothy Fay, at her home on South Wheeler street. Table and house decorations were in keeping with the Easter season, and Easter egg favors were given the children. After a pleasant afternoon spent in playing games, the fifty small guests were served refreshments of ice cream and cookies.

MUSIC TO FEATURE EASTER SERVICES

JOINT REVIVAL MEETING MEETS WITH IMBLEMENT SUCCESS

Easter services at the joint revival meeting being held locally by the Vernon Presbyterian and Methodist churches will be featured Sunday by special music. The church auditorium will be decorated in garb suggestive of the occasion and in the evening, especially, vocal solos, hymns, and organ music will be offered.

Rev. C. A. Waterfield, Methodist pastor, will preach morning and evening sermons Sunday. Rev. E. L. Moore, Presbyterian minister, will preach Sunday morning at the services conducted in Quanaah by the local Commandery number 33. Mr. Waterfield's subject will be "Resurrection."

Infants will be baptized Sunday morning in the period between the closing of Sunday school and the opening

of church. Mr. Waterfield announced this morning.

May Extend Week

Pastors and members of both churches express themselves as well pleased over the interest shown in the meeting thus far, and there is serious contemplation of extending the time for another week. There has been no "drive" for new members, but services mornings and nights have been well attended. Enthusiasm shown, the ministers state, is especially gratifying.

Entertains With Bridge

Miss Lucille Holt entertained a number of her friends with two tables of Bridge Monday evening at her home on West Wilbarger street. Those present were Misses Geraldine Parker, Helen Hart, Charlie May Northern, Johnny Malloy, Woody Dixon, and Ruth Patchelor, and Mrs. Sam Randall. Miss Parker won high score.

DOES CONGRESSMAN STEPHENS LIVE HERE?

"Does Congressman John H. Stephens live here?" was the query put to a Record representative one day recently by a well-dressed stranger as the noon Denver train halted momentarily in the local yards. When informed that the former resident is now living in another section of the State, the traveler waxed reminiscent.

"I'd just like to see him," he remarked. "Twenty-five years ago he got me an appointment to West Point. It struck me that he might still live here and I'd like to see him. You know—"

The conductor waved his hand, the bell changed, and the stranger was gone without having revealed his identity.

CONGRESSMEN OFFER REPRESENTATION IN PLACE OF PARRISH

Hon. Hatten W. Summers, formerly Congressman at large, and Hon. Marvin Jones, prior to the redistricting of the state, the representative of the territory now comprising the thirteenth district, have issued a statement to the people of the thirteenth Congressional district offering their services until a successor to Lucian W. Parrish can be elected. The statement reaching The Record and addressed to the people of this district is the following:

Statement To Public

"The death of our esteemed colleague, the Hon. Lucian W. Parrish, having left you without a representative in the House, with many matters now pending and others which will need attention with the various departments, we are rendering to you our services until such a time as a successor to Mr. Parrish shall have been elected.

"We want you to feel free to call on us for any service which we can render. We shall be glad to respond not only that we may aid in completing the unfinished work of our departed friend and colleague, but as evidence of gratitude which we feel for the fact that it was largely due to the vote given by you that we were first elected to Congress."

The Moral Risk

WHEN the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE. That's where the moral hazard comes in.

And you can't establish credit over night. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.

LOCAL HIGH SCHOOL AT TOP OF LEAGUE

VERNON LISTED AMONG LEADERS IN INTERSCHOOL-
TIC BASEBALL

Vernon high school is listed by the University of Texas Interscholastic League bureau as being among those in the State thus far having maintained an average of 1,000 per cent in baseball. Crowell, opponent of the locals today, is credited with an average of 333 per cent. Cecil White of Vernon is placed among the heavy hitters with a percentage of 462.

Following is the report of the Bureau:

"The high school baseball teams of the state are swinging into full stride getting ready for a strenuous two months scrap for supremacy. Reports of games are daily pouring into the University of Texas Interscholastic League Bureau showing that interest in the great American game among high schools is as strong as the interest shown in football last fall. McKinney of Collin County seems to be the class of the field with four victories over prominent teams to her credit.

North Fort Worth is also going strong but only two wins have been reported, one each over Weatherford and Dallas Forest High. The latter is the only shut-out game reported and Tarpley and Swallow are the twirlers for North Side who turned the trick.

Four teams in the Panhandle seem to be dividing honors equally. Amarillo, and Childress broke even in a two game series, also Slaton and Lubbock. Mission in the lower Rio Grande valley retains the leadership of that section, with 1,000 per cent.

A study of the batting averages of the boys in the League reveals the fact that Texas is still producing Tris Speakers, Roger Hornsby and Bill Fawks. Although J. Thornton of Beville tops the list with a percentage of .600, he has been at the bat only five times. Herman White, the hard hitting catcher on the McKinney team appears to be the real leader with the willow maintaining an average of .545 in eleven trips to the plate. He is also credited with one three bagger and a home run. The heavy hitters batting better than .350, are:

List of Sluggers
600, Thornton, J., Beville; .545, White, Herman, McKinney; .550, Averyett, H., Claude; Warner, G., Claude; Wilson, R., Milford; Hexemer, L., North Fort Worth; Lehman, L., Mission; Carter, R., Cleburne; White, C., Vernon; .462, Lareau, L., Mission; .444, Clements, Milford; Riddle, Paducah; .429, Davis, T., Austin; Roberts, Jack, Crowell; Talbot, Fitz, McKinney; Tarpley, J., North Fort Worth; .417, Harding, Porter, McKinney; .400, Burton, J. OLIVIA STONE AWAITS FATE
AT JURY'S HANDS

Olivia Stone.

A jury in the Brooklyn, (N. Y.) Supreme Court is hearing testimony that will aid them in deciding the fate in Olivia Stone, alleged slayer of Ellis Guy Kinkadee, her common-law husband, who, according to testimony, killed him because he refused to accompany her to the marriage altar.

WAR GASES PROPOSED FOR
DESTROYING NOXIOUS PESTS

Deadly gases that were developed for war purposes are now being tried out by the United States Department of Agriculture as a means for destroying noxious birds, animals, and insects. Some of them promise to be useful when applied under proper conditions particularly those that are heavier than thin air and can be used on burrowing rodents, and possibly subterranean insects and pests in stored products.

The most recent proposal is to use gas to kill destructive birds that congregate in marshes. In the coming fall the Biological Survey, in co-operation with the Chemical Warfare Service, is planning to make a trial of the method on blackbirds in the Imperial Valley of California. In that region these birds are said to do at least \$50,000 worth of damage to the milo crop each year. Because of their feeding habits it is impossible to destroy these birds with poisoned baits, but, as they roost on the reeds in the marshes, it is thought that they can be killed by a gas cloud at night when the wind is favorable. The blackbirds are migratory and return to the same places year after year. It is thought that a big killing in a certain locality will probably free it of the pests for many years. A few other birds in the black-bird-infested marshes will be killed at the same time, but the department believes that these local birds will soon reach their normal numbers again.

Arrangements also are being made by the Biological Survey with the Chemical Warfare Service for investigating the possibility of using poison gases on such burrowing rodents as rats, prairie dogs, ground squirrels, and woodchucks. Tests on pocket gophers and ground squirrels by these two co-operating branches of the Government in California show that chlorine may be used with good results if handled properly. The Chemical Warfare Service used phosgene on rats in Porto Rico with promising results. Some of these war gases will be compared with carbon bisulphide for the killing of woodchucks and other rodents in their burrows.

While doing your house cleaning after the sandstorm send your mattress to Prices Mattress Factory and have it renovated. Phone 345. 27-5tc.

FOSTER'S WEEKLY
WEATHER BUREAU

Washington, D. C., April 15.—Near April 16 a warm wave will cover northwestern Canada and April 18 it will be all along meridian 90 from Gulf of Mexico to far north, in middle sections 20 near Atlantic coast 22. Cool wave was expected to cover northwestern Canada near April 13, on meridian 90, 15, near Atlantic coast 17. Temperatures of last ten days of April are expected to average near normal; rising temperatures from April 16 to May 1. Great hot wave will cross continent from April 28 to May 3.

A great change in crop weather will begin in May for North America; a change for better crop weather in two-thirds of all cultivated lands. Most important world crop weather, that will have occurred within a century will come within next few months, beginning first part of May. The changes will be very great and the conditions brought on our race by the great world war are such that big crops in other countries would bring peace, plenty and happiness, particularly to Europe, but would ruin the markets for the good crops of North America. I assert that the world crops, outside of this continent, will be extremely good or extremely bad. If the latter, the conditions of all Europe will be fully as bad financially, and in matters of government, as they have been in central Russia.

Temperatures of Canada for May will average above normal with higher than usual during the weeks centering on 10 and 25 and lowest on 20. Temperatures of northern and southern states will average near normal with highest temperatures during weeks centering on 7 and 24, lowest during weeks centering on 17 and 30. Rainfall generally will increase during May in sections that have been too dry and will decrease where it has been too wet.

I am of opinion that newspapers should publish complete crop weather forecasts one or two years in advance. I believe that it is practical for them to do so. Such forecasts require great labor and expense, but these can be met on reasonable terms if the subscribers to the newspapers will take hold of the work earnestly. If 20 subscribers will pay to this newspaper \$5.00 each, I will send to the newspaper complete crop weather forecasts for one year, all in advance, for this county and if 40 subscribers, I will make it for two years in advance. This will not change the weekly weather bulletins. These long range crop weather forecasts will be made in such a way that every farmer can easily apply them to his farm or farms.

These forecasts will be for temperatures, rain, snow, hail, warm waves, cold waves, floods, drought, severe storm tornadoes, hurricanes, cold and warm winters, cool and hot summers, freezes,

frosts, hot winds, early and late spring and fall; whether these will be above or below, greater or less, better or worse than usual.

Reduced Fare To Conference

Austin, Texas, April 10.—According to information received by E. J. Mathews, registrar of the University of Texas, reduced rates have been granted by the railroads to all who attend the Educational conference to be held at the University April 21-22. A one and one-half fare will be granted but the purchasers must pay full fare on the going trip to Austin, and tickets for the return journey will be sold at one-half fare. It is necessary, however, for the purchaser of the full fare one-way ticket to Austin to obtain a certificate or receipt at the time of purchase and to have this signed or validated by Dr. W. S. Sutton at the University in order to obtain the reduced return rate of fare. Unless as many as 250 certificates are presented the reduced rate can not be applied to any certificate holder, it is explained.

Will Finance Schooling

Austin, Texas, April 10.—Announcement has just been made that a prominent alumnus of the University of Texas, who asks that his name not be made public, has made provision to finance any high school student of good scholastic record and other favorable attributes who may be without funds in attending the University. It is required, however, that the student pay his own way during the first three months after entrance in order that it may be seen whether he has the scholastic qualifications to remain in the University. Any deserving student already in the University who may be short of funds may also receive financial support from this same alumnus.

Will Continue Business

I wish to announce to my friends that I intend to continue the Auto Tire and Battery Company formerly operated by my husband, H. F. Ragland, and will appreciate the patronage thus far so kindly extended to us. I shall be glad to settle all bills outstanding against the concern.

MRS. H. F. RAGLAND.

CHARITABLE DEMANDS HEAVY

County Welfare Association Answers Many Calls During Month Of March

Demands on the Wilbarger County Welfare Association during March were particularly heavy, according to officers of the organization, and the body is now practically without funds. Practically every available garment has been disposed of.

Accounts kept by the Welfare Association show that it consistently maintained its record for service during March. Seventy-three telephone calls were answered, 190 garments distributed, ten pairs of shoes given away, twenty-one pairs of stockings presented to needy persons, thirty-two visits paid over the county, one cap given away, four hats disposed of, nineteen appeals for work answered, nine families were supplied with groceries, two with coal, \$7.25 worth of drugs purchased, and \$11.25 paid for rent.

With the passing of severe winter workers state, the need for charity is not eliminated. There are many in the county who are still in immediate need of aid.

Rated High all Over the World

Almost everywhere abroad—east or west—you will find a decided preference for the Hupmobile as representative of the best that America produces.

Why do foreign lands rate the Hupmobile so high? For precisely the same reasons it is rated high at home—its recognized value, its recognized ability, its low costs and its long life.

Most of all, perhaps, for its splendid self-reliance, which makes the Hupmobile a favorite for travel through wild and sparsely settled regions.

It is this quality of self-reliance which above all its other remarkable attributes, has won the lasting admiration of motor car buyers everywhere.
